

What objects does a charged balloon attract?

Let's get charged!

Step 1: Rub a balloon against your hair. The balloon will pick up negative particles from your hair.

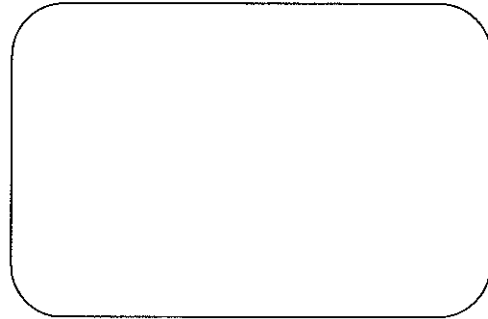

Step 2: Now hold the balloon about 5 inches from your hair.

**INSERT A PICTURE  
OF YOU & YOUR BALLOON.**

Step 3: Test the following objects by holding the balloon close to them:

- tissue paper
- index card
- kleenex
- your clothes

Which objects does the balloon attract?

What did you conclude about the strength of the balloon's electric force?
